Educator
Guide for more
details on these
principles**

Spend some time discussing the principals of green economy at the start of the lesson.

Learners are going to think about how the varying sectors can successfully contribute to the green economy and then present their work in a poster format.

Encourage learners to be as creative as possible and think outside the box - you never know what might help contribute to sustainable development!

Learners should focus on:

- Wellbeing (both human and environmental)
- Inclusivity
- Sustainable Development
- Economic Growth

Learners should choose at least 4 of the following sectors:

- Agriculture
- Tourism
- Forestry and/or Fisheries
- Energy
- Mining
- Manufacturing
- Transport
- Housing/Buildings
- Waste Management
